

# TOP 25 PERFORMING UNIVERSITIES IN INTERDISCIPLINARY PUBLICATIONS

By U-Multirank

In this list, we present the U-Multirank 2018 top performers on the indicator 'interdisciplinary publications'. The more a publication refers to publications belonging to different fields of science and the larger the distance between these fields, the higher is the degree of interdisciplinary research at a university. Given that the frontiers of research are often at the edge of disciplines, the interdisciplinarity of research also reflects its innovative character.

**Royal Agricultural University**

United Kingdom

**Athlone Institute of Technology**
