# Programmes

In some higher education systems the **standard period of study differs by discipline** (e.g. engineering programmes are longer than those in the humanities) or level (honours bachelor programmes are longer than standard bachelor programmes). At the request of a number of participating institutions we offer the option of indicating different durations for standard and longer bachelor and master programmes. This makes reporting more convenient and enables a better calculation of graduation rates.

4 Please provide the following information on **degree programmes** offered in 2020. [?]
