U-Multirank top 25 performers in co-publications with industrial partners

In this list we present the U-Multirank 2016 top performers on the indicator ‘co-publications with industrial partners’.

This indicator addresses the level of collaboration between universities and industry. The more research is carried out with industrial partners, the more likely it is that knowledge transfer takes place between academia and business/industry.

The list of top performers in university – industry cooperation as measured by joint research publications is dominated by European (16) and Asian (9) institutions. Among the top performers are many technical universities. The highest score is achieved by a German university of applied sciences (Reutlingen) with 18.6 % of all publications being published with co-authors from business/industry.

The 25 top performers in Co-publications with industrial partners are:

- Reutlingen UAS (Germany)
- Nuremberg IoT (Germany)
- Munich UAS (Germany)
- Eindhoven U Tech (Netherlands)
