

U-MULTIRANK 2019

Swedish Universities in Global Comparison

U-MULTIRANK 2019

U-Multirank is a unique, multi-dimensional and international ranking of higher education institutions. It compares university performance across teaching and learning, research, knowledge transfer, international orientation and regional engagement. It is the largest and most inclusive ranking showcasing the diversity in higher education around the world. It is not a league table and does not use composite indicators, nor reputation weights. Therefore, there is no one best university in U-Multirank. The performance of a university is presented with individual scores – graded from 'A' (very good) to 'E' (weak) across the different areas.

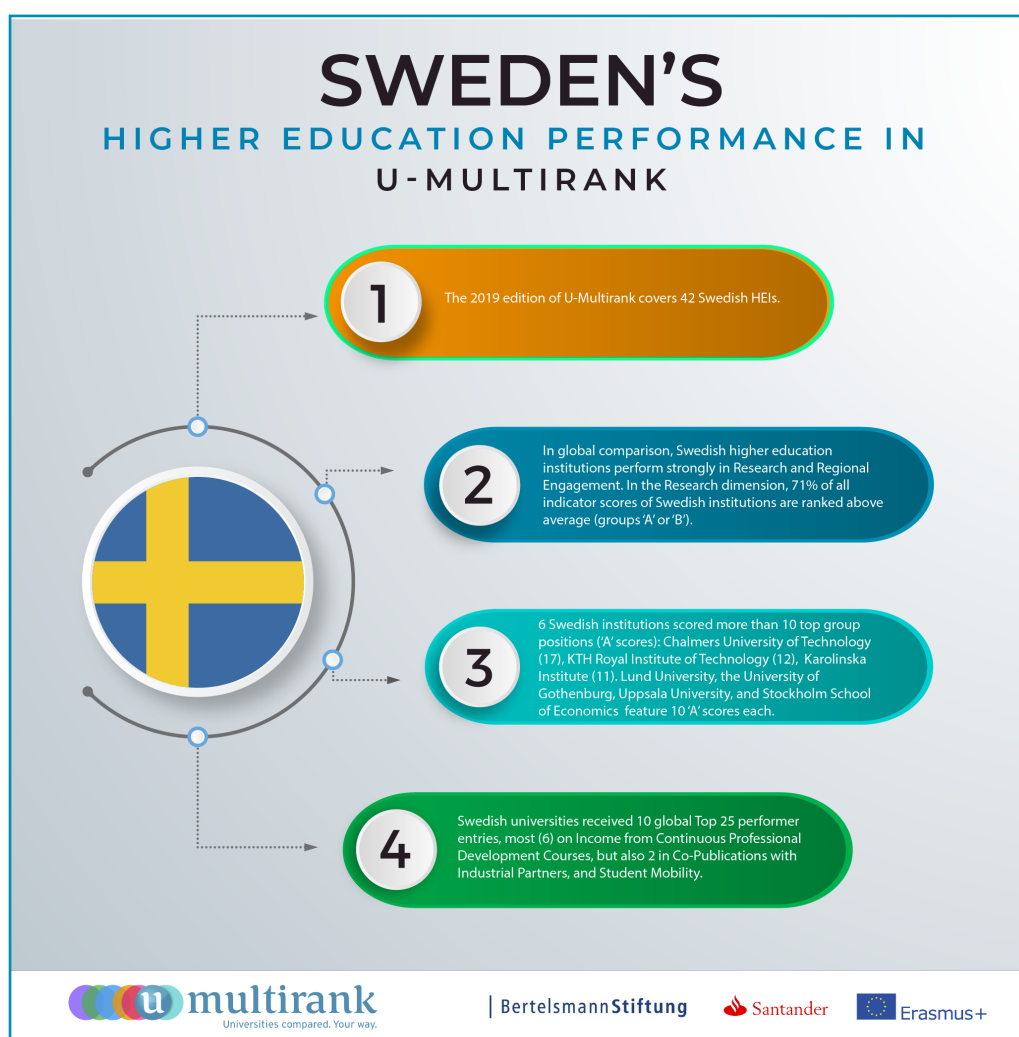

U-Multirank's 2019 edition presents data on 42 Swedish higher education institutions. For the full list of all universities from Sweden included in U-Multirank, please visit our [website](#).

AT A GLANCE: HOW DO SWEDISH UNIVERSITIES FARE IN U-MULTIRANK?

- The 2019 edition of U-Multirank covers 42 Swedish HEIs.
- In global comparison, Swedish higher education institutions perform strongly in Research and Regional Engagement. In the Research dimension, 71% of all indicator scores of Swedish institutions are ranked above average (groups 'A' or 'B').
- 6 Swedish institutions scored more than 10 top group positions ('A' scores): Chalmers University of Technology (17), KTH Royal Institute of Technology (12), Karolinska Institute (11). Lund University, the University of Gothenburg, Uppsala University, and Stockholm School of Economics feature 10 'A' scores each.
- Swedish universities received 10 global Top 25 performer entries, most (6) on Income from Continuous Professional Development Courses, but also 2 in Co-Publications with Industrial Partners, and Student Mobility.

WHICH ARE THE TOP PERFORMING UNIVERSITIES IN SWEDEN?

Chalmers University of Technology received the highest number of 'A' (very good) scores on the institutional level for Sweden in 2019.

In this section we highlight the universities receiving the highest number of 'A' (very good) scores on the institutional level for the respective country.

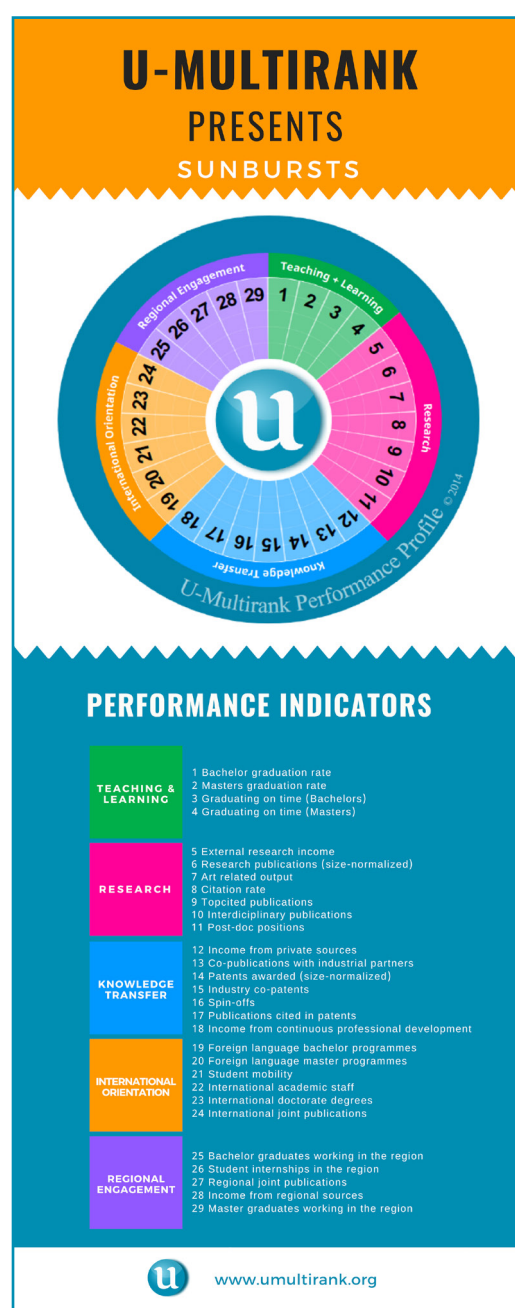

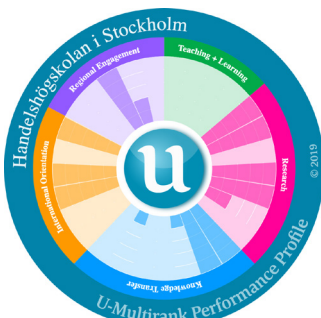

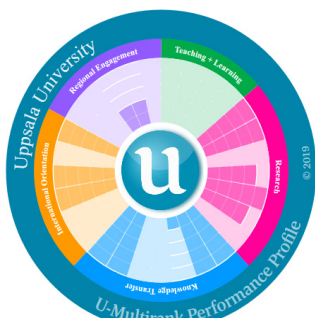

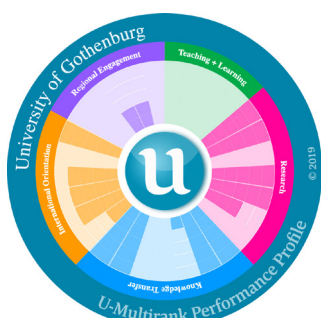

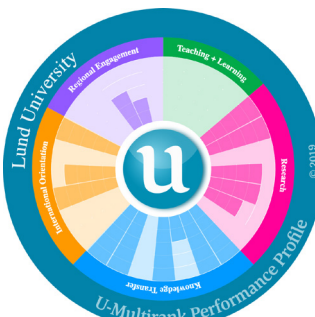

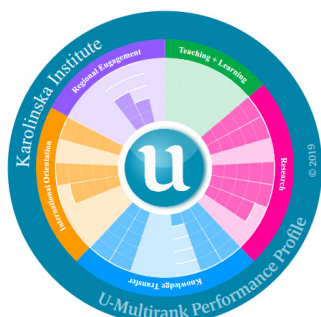

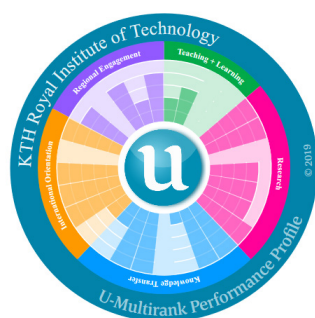

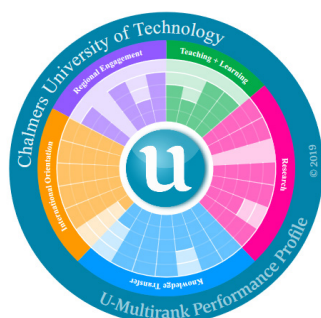

Although the number of 'A' scores shows top performance for the respective university, it does not imply one university is the 'best' in the country, as each university profile highlights different strengths.

Swedish universities with the highest number of overall top scores in 2019	Total 'A' scores 2019	Total 'A' scores 2018
Chalmers University of Technology	17 ↑	14
KTH Royal Institute of Technology	12 ↑	4
Karolinska Institute	11 ↑	8
Lund University	10 ↑	7
University of Gothenburg	10 ↑	7
Uppsala University	10 ↑	6
Handelshögskolan i Stockholm	10	NEW!

The list includes different profiles of institutions: comprehensive universities, as well as business schools and technical universities.

WHAT ARE THE PERFORMANCE PROFILES OF SWEDEN'S TOP SCORING UNIVERSITIES?

Using our unique sunburst chart, a clear picture is shown of the university's overall performance (the longer the bar, the higher the score).

*For a list of definitions and calculations of indicators, see our [Indicator Book](#).

WHAT DO SWEDISH UNIVERSITIES DO BEST?

10 Swedish universities have achieved a global Top 25 score in
2019

TOP 25 PERFORMING UNIVERSITIES IN INCOME FROM CONTINUOUS PROFESSIONAL DEVELOPMENT

By U-Multirank

In this list we present the U-Multirank 2019 top performers on the indicator 'income from continuous professional development'. The indicator concerns the level of knowledge transfer: a university active in providing continuous professional education courses to companies and individuals is assumed to transfer knowledge to external actors.

HOW DO SWEDISH UNIVERSITIES PERFORM GLOBALLY?

Swedish higher education institutions perform strongest in U-Multirank's International Orientation and Research dimensions.

Above or below average?

In this section we highlight the overall performance of Swedish universities on the institutional level per U-Multirank dimension.

The below table shows the national breakdown of Swedish universities and how they stand across the spectrum of above average (receiving a score of 'A' (very good) or 'B' (good), or below average (receiving a score of 'D' (below average) or 'E' (weak)). In doing so, U-Multirank offers a clear picture on the countries strengths, and areas for improvement.

APPENDIX

DETAILED RESULTS

If you want to analyse further the performance of the universities in your country you can click the following links.

The below links lead directly to the national results pages where we pre-filtered the universities in your country into one list (for the university as a whole and for the subject areas included in U-Multirank so far). You can use the table to produce national rankings (see image below), or for personalised interactive analyses with the data.

If you're interested in tailor-made tables (institutional level, subject level, or with a specific focus in mind, such as internationalisation), please contact us, at info@umultirank.org. These links are also accessible via your country's 'Study in' page.

WHAT IS U-MULTIRANK?

U-Multirank is a multidimensional, user-driven approach to international ranking of higher education institutions. It compares the performances of higher education institutions – in short: universities – in the five dimensions of university activity:

(1) teaching and learning, (2) research, (3) knowledge transfer, (4) international orientation and (5) regional engagement.

The U-Multirank web tool enables comparisons at the level of the university as a whole and at the level of specific study programmes. Based on empirical data, U-Multirank compares institutions with similar institutional profiles ('like-with-like') and allows users to develop their own personalised rankings by selecting indicators in terms of their own preferences.

Based on the results of a feasibility study covering 150 universities which was carried out in 2010/11, the European Commission decided to fund the implementation of U-Multirank. This roll out is carried out by a consortium led by Professor Frans van Vught of the Center for Higher Education Policy Studies (CHEPS), University of Twente in the Netherlands and Professor Frank Ziegele of the Centre for Higher Education (CHE) in Sweden as well as the Centre for Science and Technology Studies (CWTS) from Leiden University, Fundacion CYD and Folge 3. U-Multirank is funded by the European Commission, the Bertelsmann Foundation and Banco Santander. The consortium also works closely with a range of national ranking partners and stakeholder organisations.

The work of the U-Multirank consortium is overseen by an Advisory Board.
