U-MULTIRANK
2020
Swedish Universities in Global Comparison
U-MULTIRANK 2020

U-Multirank is a unique, multi-dimensional and international ranking of higher education institutions. It compares university performance across teaching and learning, research, knowledge transfer, international orientation and regional engagement. It is the largest and most inclusive ranking showcasing the diversity in higher education around the world. It is not a league table and does not use composite indicators, nor reputation weights. Therefore, there is no one best university in U-Multirank. The performance of a university is presented with individual scores – graded from ‘A’ (very good) to ‘E’ (weak) across the different areas.

U-Multirank’s 2020 edition presents data on 38 Swedish higher education institutions. For the full list of all universities from Sweden included in U-Multirank, please visit our website.

8 APPENDIX: HOW CAN DETAILED RESULTS BE PRESENTED?

9 WHAT IS U-MULTIRANK?
The 2020 edition of U-Multirank covers 38 Swedish higher education institutions.

In global comparison, Swedish higher education institutions perform particularly strong in the International Orientation Dimension, in which 77% of all indicator scores of Swedish institutions are ranked above average (groups ‘A’ (very good), or ‘B’ (good)).

Three (3) Swedish institutions scored at least 10 top group positions (‘A’ scores): Chalmers University of Technology (15), Stockholm School of Economics (14), and KTH Royal Institute of Technology (10).

Twelve Swedish universities received 10 global ‘Top 25 Performers’ entries; five (5) for Student Mobility (Blekinge Institute of Technology, Jönköping University, Lund University, Newmaninstitutet, and the Stockholm School of Economics), and one (1) for Regional Joint Publications (Swedish Red Cross University College of Nursing and Health) as well as for Income from Continuous Professional Development (Stockholm School of Economics). Chalmers University of Technology and the University West are listed for Co-publications with Industrial Partners.
In this section we highlight the universities receiving the highest number of ‘A’ (very good) scores on the institutional level for the respective country. Although the number of ‘A’ scores shows top performance for the respective university, it does not imply one university is the ‘best’ in the country, as each university profile highlights different strengths.

The list includes different profiles of institutions: comprehensive universities, as well as business schools and technical universities.

WHAT DO
SWEDISH UNIVERSITIES DO
BEST?

9 Swedish universities have achieved a global Top 25 score in 2020

Globally Top Performing Swedish Universities

In this section, U-Multirank presents the global Top 25 performers in a set of 10 indicators measuring different dimensions of performance. These lists highlight the 25 top-performing universities from around the world with the highest scores.

Swedish universities that have achieved a global Top 25 score are listed under the respective categories:

Co-publications with industrial partners
- Chalmers University of Technology
- University West

Income from continuous professional development
- Försvarshögskolan
- Stockholm School of Economics

Regional joint publications
- Swedish Red Cross University College of Nursing and Health

Student mobility
- Stockholm School of Economics
- Jönköping University
- Lund University
- Blekinge Institute of Technology
- Newman Institute

*For the full lists of all global Top 25 performers, please visit our website.*
Above or below average?

In this section we highlight the overall performance of Swedish universities on the institutional level per U-Multirank dimension. The below table shows the national breakdown of Swedish universities and how they stand across the spectrum of above average (receiving a score of ‘A’ (very good) or ‘B’ (good)), or below average (receiving a score of ‘D’ (below average) or ‘E’ (weak)). In doing so, U-Multirank offers a clear picture on the countries strengths, and areas for improvement.
If you want to analyse further the performance of the universities in your country you can click the following links.

The below links lead directly to the national results pages where we pre-filtered the universities in your country into one list (for the university as a whole and for the subject areas included in U-Multirank so far). You can use the table to produce national rankings (see image below), or for personalised interactive analyses with the data.

If you’re interested in tailor-made tables (institutional level, subject level, or with a specific focus in mind, such as internationalisation), please contact us, at info@umultirank.org. These links are also accessible via your country’s ‘Study in’ page.

WHAT IS U-MULTIRANK?

U-Multirank is a multidimensional, user-driven approach to international ranking of higher education institutions. It compares the performances of higher education institutions – in short: universities – in the five dimensions of university activity:

(1) teaching and learning, (2) research, (3) knowledge transfer, (4) international orientation and (5) regional engagement.

The U-Multirank web tool enables comparisons at the level of the university as a whole and at the level of specific study programmes. Based on empirical data, U-Multirank compares institutions with similar institutional profiles (‘like-with-like’) and allows users to develop their own personalised rankings by selecting indicators in terms of their own preferences.

Based on the results of a feasibility study covering 150 universities which was carried out in 2010/11, the European Commission decided to fund the implementation of U-Multirank. This roll out is carried out by a consortium led by Professor Frans van Vught of the Center for Higher Education Policy Studies (CHEPS), University of Twente in the Netherlands and Professor Frank Ziegele of the Centre for Higher Education (CHE) in Sweden as well as the Centre for Science and Technology Studies (CWTS) from Leiden University, Fundacion CYD and Folge 3. U-Multirank is funded by the European Commission, the Bertelsmann Foundation and Banco Santander. The consortium also works closely with a range of national ranking partners and stakeholder organisations.

The work of the U-Multirank consortium is overseen by an Advisory Board.
