U-MULTIRANK 2021

Danish Universities in Global Comparison

WWW.UMULTIRANK.ORG
U-MULTIRANK 2021

U-Multirank is a unique, multi-dimensional and international ranking of higher education institutions. It compares university performance across teaching and learning, research, knowledge transfer, international orientation and regional engagement. It is the largest and most inclusive ranking showcasing the diversity in higher education around the world. It is not a league table and does not use composite indicators, nor reputation weights. Therefore, there is no one best university in U-Multirank. The performance of a university is presented with individual scores – graded from ‘A’ (very good) to ‘E’ (weak) across the different areas.

U-Multirank’s 2021 edition presents data on 6 Danish higher education institutions. For the full list of all universities from Denmark included in U-Multirank, please visit our website.

6 WHAT DO DANISH UNIVERSITIES DO BEST?
7 HOW DO DANISH UNIVERSITIES PERFORM GLOBALLY?
8 APPENDIX: HOW CAN DETAILED RESULTS BE PRESENTED?
9 WHAT IS U-MULTIRANK?
• In a global perspective, the higher education institutions in Denmark perform strongest in U-Multirank’s International Orientation dimension, followed by the Knowledge Transfer and Research dimensions.

• The Danish institutions with the highest number of overall top ('A') scores are the Technical University of Denmark (14), Aalborg University (11) and the University of Copenhagen (11).

• The Technical University of Denmark is listed among the global top 25 in Co-publications with Industrial Partners.
### WHICH ARE THE TOP PERFORMING UNIVERSITIES IN DENMARK?

In this section we highlight the universities receiving the highest number of ‘A’ (very good) scores on the institutional level for the respective country. Although the number of ‘A’ scores shows top performance for the respective university, it does not imply one university is the ‘best’ in the country, as each university profile highlights different strengths.

WHAT ARE THE PERFORMANCE PROFILES OF DENMARK’S TOP SCORING UNIVERSITIES?

Using our unique sunburst chart, a clear picture is shown of the university’s overall performance (the longer the bar, the higher the score).

For a list of definitions and calculations of indicators, see our Indicator Book.
Globally Top Performing Danish Universities

In this section, U-Multirank presents the global Top 25 performers in a set of 10 indicators measuring different dimensions of performance. These lists highlight the 25 top-performing universities from around the world with the highest scores.

Australian universities that have achieved a global Top 25 score are listed under the respective categories:

Co-publications with industrial partners

- Technical University of Denmark

*For the full lists of all global Top 25 performers, please visit our website.
Danish higher education institutions perform strongest in U-Multirank’s International Orientation dimension.

Above or below average?

In this section we highlight the overall performance of Danish universities on the institutional level per U-Multirank dimension.

The below table shows the national breakdown of Danish universities and how they stand across the spectrum of above average (receiving a score of ‘A’ (very good) or ‘B’ (good)), or below average (receiving a score of ‘D’ (below average) or ‘E’ (weak)). In doing so, U-Multirank offers a clear picture on the countries strengths, and areas for improvement.

U-Multirank is a multidimensional, user-driven approach to international ranking of higher education institutions. It compares the performances of higher education institutions – in short: universities – in the five dimensions of university activity:

(1) teaching and learning, (2) research, (3) knowledge transfer, (4) international orientation and (5) regional engagement.

The U-Multirank web tool enables comparisons at the level of the university as a whole and at the level of specific study programmes. Based on empirical data, U-Multirank compares institutions with similar institutional profiles (‘like-with-like’) and allows users to develop their own personalised rankings by selecting indicators in terms of their own preferences.

Based on the results of a feasibility study covering 150 universities which was carried out in 2010/11, the European Commission decided to fund the implementation of U-Multirank. This roll out is carried out by a consortium led by Professor Frans van Vught of the Center for Higher Education Policy Studies (CHEPS), University of Twente in the Netherlands and Professor Frank Ziegele of the Centre for Higher Education (CHE) in Germany as well as the Centre for Science and Technology Studies (CWTS) from Leiden University and Fundacion CYD. U-Multirank is funded by the European Commission, the Bertelsmann Foundation and Banco Santander. The consortium also works closely with a range of national ranking partners and stakeholder organisations.

The work of the U-Multirank consortium is overseen by an Advisory Board.
