U-MULTIRANK 2021
Italian Universities in Global Comparison
U-MULTIRANK 2021

U-Multirank is a unique, multidimensional and international ranking of higher education institutions. It compares university performance across teaching and learning, research, knowledge transfer, international orientation and regional engagement. It is the largest and most inclusive ranking showcasing the diversity in higher education around the world. It is not a league table and does not use composite indicators, nor reputation weights. Therefore, there is no one best university in U-Multirank. The performance of a university is presented with individual scores – graded from ‘A’ (very good) to ‘E’ (weak) across the different areas.

U-Multirank’s 2021 edition presents data on 83 Italian higher education institutions. For the full list of all universities from Italy included in U-Multirank, please visit our website.
In its 2021 edition, U-Multirank covers 83 higher education institutions from Italy.

Italian higher education institutions show a strong performance in the dimensions of Research and Regional Engagement.

The five Italian institutions with the highest number of top positions ('A' scores) amongst all Italian institutions are Bocconi University (15), followed by Humanitas University (13), Sant’Anna School of Advanced Studies (13), IMT School for Advanced Studies Lucca (12) and the Polytechnic University of Milan (12).

These top performers have a specific profile. Bocconi University is strongest in the dimension International Orientation and IMT School for Advanced Studies Lucca in Research, while for Polytechnic University of Milan Knowledge Transfer is the best single dimension.

Four Italian universities are listed among ‘Top 25 Performers’ in Co-publications with Industrial Partners (University of Basilicata, University of Cassino and Southern Lazio, University of Naples Parthenope, and University of Tuscia). University Guglielmo Marconi is listed in International Joint Publications, Regional Joint Publications and Open Access Publications.
WHICH ARE THE TOP PERFORMING UNIVERSITIES IN ITALY?

Bocconi University received the highest number of ‘A’ (very good) scores on the institutional level for Italy in 2021.

In this section we highlight the universities receiving the highest number of ‘A’ (very good) scores on the institutional level for the respective country. Although the number of ‘A’ scores shows top performance for the respective university, it does not imply one university is the ‘best’ in the country, as each university profile highlights different strengths.

The list includes different profiles of institutions: comprehensive universities, as well as business schools and technical universities.
WHAT ARE THE PERFORMANCE PROFILES OF ITALY'S TOP SCORING UNIVERSITIES?

Using our unique sunburst chart, a clear picture is shown of the university’s overall performance (the longer the bar, the higher the score).

For a list of definitions and calculations of indicators, see our Indicator Book.
Five Italian universities have achieved a global Top 25 score in 2021.

Globally Top Performing Italian Universities

In this section, U-Multirank presents the global Top 25 performers in a set of 10 indicators measuring different dimensions of performance. These lists highlight the 25 top-performing universities from around the world with the highest scores.

Italian universities that have achieved a global Top 25 score are listed under the respective categories:

- **International joint publications**
  - University Guglielmo Marconi
- **Regional joint publications**
  - University Guglielmo Marconi
- **Open access publications**
  - University Guglielmo Marconi

**Co-publications with industrial partners**

- University of Basilicata
- University of Cassino and Southern Lazio
- University of Naples Parthenope
- University of Tuscia

Above or below average?

In this section we highlight the overall performance of Italian universities on the institutional level per U-Multirank dimension.

The below table shows the national breakdown of Italian universities and how they stand across the spectrum of above average (receiving a score of ‘A’ (very good) or ‘B’ (good)), or below average (receiving a score of ‘D’ (below average) or ‘E’ (weak)). In doing so, U-Multirank offers a clear picture on the countries strengths, and areas for improvement.

U-Multirank is a multidimensional, user-driven approach to international ranking of higher education institutions. It compares the performances of higher education institutions – in short: universities – in the five dimensions of university activity:

(1) teaching and learning, (2) research, (3) knowledge transfer, (4) international orientation and (5) regional engagement.

The U-Multirank web tool enables comparisons at the level of the university as a whole and at the level of specific study programmes. Based on empirical data, U-Multirank compares institutions with similar institutional profiles (‘like-with-like’) and allows users to develop their own personalised rankings by selecting indicators in terms of their own preferences.

Based on the results of a feasibility study covering 150 universities which was carried out in 2010/11, the European Commission decided to fund the implementation of U-Multirank. This roll out is carried out by a consortium led by Professor Frans van Vught of the Center for Higher Education Policy Studies (CHEPS), University of Twente in the Netherlands and Professor Frank Ziegele of the Centre for Higher Education (CHE) in Germany as well as the Centre for Science and Technology Studies (CWTS) from Leiden University and Fundacion CYD. U-Multirank is funded by the European Commission, the Bertelsmann Foundation and Banco Santander. The consortium also works closely with a range of national ranking partners and stakeholder organisations.

The work of the U-Multirank consortium is overseen by an Advisory Board.
