CHINESE UNIVERSITIES IN GLOBAL COMPARISON
2021 STUDENT REPORT

Finding the best university, study programme or student exchange can be hard. To help students through that process U-Multirank has worked to create a new type of university ranking tool, giving you the power to compare according to what matters most to you. With more than 100,000 students taking part in U-Multirank’s annual student survey, it gives you valuable peer-to-peer feedback for some 2,000 universities and colleges from 97 countries worldwide. From this information you can create your own personalised university rankings, comparing them in the areas of teaching & learning, research, knowledge exchange, internationalisation and regional engagement.

U-Multirank’s student reports highlight the national performance of universities in China. The 2021 edition features 130 Chinese universities. For the full list of all universities from China included in U-Multirank, please visit our master list of universities.

NATIONAL PERFORMANCE OF CHINA

U-Multirank makes transparent the strengths of a country’s higher education system. In its latest edition, Chinese universities show their strongest performance in Regional Engagement.

TOP PERFORMING UNIVERSITIES IN CHINA

In this section we highlight the universities receiving the highest number of ‘A’ (very good) scores on the institutional level for China. Although the number of ‘A’ scores shows top performance for the respective university, it does not imply one university is the ‘best’ in the country, as each university profile highlights different strengths.

- University of Macau: 14 ‘A’ scores
- Beijing University of Chemical Technology: 11 ‘A’ scores
- Tsinghua University: 11 ‘A’ scores
- Beijing University: 9 ‘A’ scores
- Fudan University: 8 ‘A’ scores
- Hong Kong University of Science and Technology: 8 ‘A’ scores
- Shanghai Jiao Tong University: 8 ‘A’ scores
- South China University of Technology: 8 ‘A’ scores
- Southeast University: 8 ‘A’ scores

LOOKING AT STUDENT MOBILITY

In this section we highlight the universities with the highest student mobility. Rather than only looking at unilateral movement, U-Multirank measures student mobility with both incoming and outgoing students in mind, giving a more well-rounded view on how internationally diverse the student body is. Students interested in this area should explore comparisons according to international orientation.

TOP SAFEST CITIES IN CHINA FOR STUDENTS

At U-Multirank, we understand that safety can play an important factor when deciding where to study. That’s why we include information from the Numbeo Safety Index. The positions (ranging from 1 to 442) and scores (ranging from 0 to 100) are based on a global comparison of cities.
