

U-Multirank

Questionnaire for faculties / departments

General instructions

Years

Many questions in this questionnaire specify that information should be provided for (a) particular year(s). The table below indicates the academic year in questions in which an academic year does not coincide with a calendar year. Please use the format that fits your institutional administration best. Please be consistent regarding the format you have chosen within each question.

If no specific year is indicated in a question, please refer to the most recent academic year wherever possible. If you are unable to provide the most recent data, please leave a comment in the respective comment field in which you specify to which year the data refer.

Calendar year	Academic year
2017	2017/2018
2018	2018/2019
2019	2019/2020

General information and [?]-symbols

The questionnaire includes [?]-symbols. When you hover over this symbol with your mouse, they provide information about definitions and particular clarifications related to specific question. You will find an overview of all [?] texts as a pdf version [here](#). If the online help features do not answer all your questions please do not hesitate to email the U-Multirank team at info@umultirank.org and we will get back to you as soon as possible. Please indicate to which part of the subject questionnaire you are referring.

“Handling of missing data

If data are not available, please leave those fields blank and tick the “data not available” box. If necessary, leave a short remark in the comment section below the question.

Please enter “0” (zero) only if zero is the correct value.

Do not use “0” to show that data are not available!

For instance, if do not have international doctoral candidates, enter value 0. If you have no data available on international doctoral candidates, please leave it blank and tick the “data not available” box. Some questions may have sub-sections. If you are unable to answer a question in all its parts, please tick the “data not available” box, but still provide any available information you hold. In these instances, please leave a comment in the comment box of this question that only partial information was available. See the following examples:

- If your department offers PhD programmes and has PhD graduates, enter the correct value.
- If your department offers PhD programmes, but did not have any PhD graduates that year, enter the value 0.
- If your department offers PhD programmes, but you do not have any information concerning PhD graduates, leave that field blank and tick the ‘data not available’ box.
- If your department does not offer PhD programs, leave the field blank and tick the ‘not applicable’ box if available
- If your department does not award doctoral degrees, please select the radio button “Institution does not award research PhDs/doctorate degrees”.

Not applicable

Some questions do not apply to all institutions. This is the case, for instance, for many universities of applied science . These usually do not have the right to confer PhD degrees. If a question does not apply to your institution, please tick the respective ‘not applicable’ box and/or leave the fields blank. Do not use “0” to show that data a question does not apply to your institution. Please note that we will calculate an indicator if you enter a value (incl. zero) in the questionnaire.

Please note that explanations on data elements, calculations and rationales can be found in the indicator book on our [website](#)].”

For definitions and further explanation of terms, please hover over the questionmark “[?]”

1 General information

Overview

Question 1 (all subjects)

Please give the full name and address of the unit responsible for organising [field] . [?1]	
Institution/ University:	
Faculty/department:	
Institute or other Sub-unit, if applicable:	
Town/city:	
Website:	

Please provide the name of a contact person who will be available to respond to potential queries from the U-Multirank team. Please indicate only one email address. Please indicate the email address including the @ symbol and do not use (at) or "at" as word. For future communication: Please make sure that our emails from info@umultirank.org will not be blocked by the firewall of your institution.

2 Included programmes

Part 1: Details about the individual study programmes

Question 3 (all subjects)

Please ensure the listed programmes

- **are currently offered,**
- are offered as a **main subject/major** in [field] at your department, and,
- first year enrolment will still be open in 2021

Please do not include

- Short-term **first** degrees **below** bachelor level (1 or 2-year programmes),
- Continuous education/CPD programmes,
- Distance-learning programmes only,
- Special programmes for teacher education,
- Programmes in which first-year enrolment is no longer possible,
- Ph.D./doctorate programmes.

Those programmes can be listed for information below in “b) Other study programmes”.

If you wish to include any additional programmes, please contact the U-Multirank team (info@umultirank.org).

Programme name	Programme level
a) [Programme1] [Programme2] [Programme3]	Pull Down 99= Please choose; 6=short undivided first degree (up to 4 years) 3=Bachelor (incl. BA honours); 4=Master; 7=long undivided first degree (>= 5 years); 8=other
