

U-MULTIRANK 2021

Greek Universities in Global Comparison

U-MULTIRANK 2021

U-Multirank is a unique, multi-dimensional and international ranking of higher education institutions. It compares university performance across teaching and learning, research, knowledge transfer, international orientation and regional engagement. It is the largest and most inclusive ranking showcasing the diversity in higher education around the world. It is not a league table and does not use composite indicators, nor reputation weights. Therefore, there is no one best university in U-Multirank. The performance of a university is presented with individual scores – graded from 'A' (very good) to 'E' (weak) across the different areas.

U-Multirank's 2021 edition presents data on 14 Greek higher education institutions. For the full list of all universities from Greece included in U-Multirank, please visit our [website](#).

AT A GLANCE: HOW DO GREEK UNIVERSITIES FARE IN U-MULTIRANK?

- In 2021, U-Multirank presents data on 14 Greek higher education institutions.
- Seven Greek institutions reached five or more top positions ('A' scores).
- The Greece institutions with the highest number of top positions ('A' scores) are: The National and Kapodistrian University of Athens (8), University of Crete (6), and the University of the Aegean (6).
- National and Kapodistrian University is listed among the global Top 25 in our new Collaboration Index.

WHICH ARE THE TOP PERFORMING UNIVERSITIES IN GREECE?

National and Kapodistrian University of Athens received the highest number of 'A' (very good) scores on the institutional level for Greece in 2021.

In this section we highlight the universities receiving the highest number of 'A' (very good) scores on the institutional level for the respective country.

Although the number of 'A' scores shows top performance for the respective university, it does not imply one university is the 'best' in the country, as each university profile highlights different strengths.

| Greek universities with the highest number of overall top scores in 2021 | Total 'A' scores 2021 | Total 'A' scores 2020 |
|--|-----------------------|-----------------------|
| <u>National and Kapodistrian University of Athens</u> | 8 ↑ | 5 |

WHAT DO GREEK UNIVERSITIES DO BEST?

National and Kapodistrian University of Athens has achieved a global Top 25 score in 2021

TOP 25 PERFORMING UNIVERSITIES IN COLLABORATION

By U-Multirank

For the first time we present a top 25 list of institutions who are strong in collaboration, both with other universities and with industry. The list is based on the U-Multirank Collaboration Index taking into account research partnerships, students in joint degree programmes, international co-publications, co-patents with industry, co-publications with industry, regional co-publications, and students in internships. As the list is based on this multi-variate index, some institutions do not have scores due to the lack of data on one or more indicators.

HOW DO GREEK UNIVERSITIES PERFORM GLOBALLY?

Greek higher education institutions perform strongest in U-Multirank's Research dimension.

Above or below average?

In this section we highlight the overall performance of Greek universities on the institutional level per U-Multirank dimension.

The below table shows the national breakdown of Greek universities and how they stand across the spectrum of above average (receiving a score of 'A' (very good) or 'B' (good)), or below average (receiving a score of 'D' (below average) or 'E' (weak)). In doing so, U-Multirank offers a clear picture on the countries strengths, and areas for improvement.

WHAT IS U-MULTIRANK?

U-Multirank is a multidimensional, user-driven approach to international ranking of higher education institutions. It compares the performances of higher education institutions – in short: universities – in the five dimensions of university activity:

(1) teaching and learning, (2) research, (3) knowledge transfer, (4) international orientation and (5) regional engagement.

The U-Multirank web tool enables comparisons at the level of the university as a whole and at the level of specific study programmes. Based on empirical data, U-Multirank compares institutions with similar institutional profiles ('like-with-like') and allows users to develop their own personalised rankings by selecting indicators in terms of their own preferences.

Based on the results of a feasibility study covering 150 universities which was carried out in 2010/11, the European Commission decided to fund the implementation of U-Multirank. This roll out is carried out by a consortium led by Professor Frans van Vught of the Center for Higher Education Policy Studies (CHEPS), University of Twente in the Netherlands and Professor Frank Ziegele of the Centre for Higher Education (CHE) in Germany as well as the Centre for Science and Technology Studies (CWTS) from Leiden University and Fundacion CYD. U-Multirank is funded by the European Commission, the Bertelsmann Foundation and Banco Santander. The consortium also works closely with a range of national ranking partners and stakeholder organisations.

The work of the U-Multirank consortium is overseen by an Advisory Board.
